

Workforce Development & Continuing Education

The Office of Workforce Development and Continuing Education provides opportunities for lifelong learning for residents of the College's service area. The office works with other areas of the College, with business and industry, and with community organizations to identify needs and to provide educational programs to meet those needs.

Programs and services include credit and non-credit courses and workshops, customized training for area businesses, workforce training and retraining programs, a number of Allied Health Certification programs, and other programs to enhance local economic development efforts. For more information please contact 860.253.3034 or 860.253.3066.

ADVANCED MANUFACTURING TECHNOLOGY CENTER

The Advanced Manufacturing Technology Center at Asnuntuck provides students with a related theory and technology education through application, with state-of-the-art equipment, in order to produce a related career employment. The Center specializes in machining with CNC, welding, robotics, electronics and many more areas to help you start your career. Ninety percent of our students have been placed into a job immediately following completion of a certificate/degree in Advanced Manufacturing. Students can complete a certificate/degree with very little out-of-pocket expense as financial aid and scholarships are available to qualified candidates.

For more information, please call 860.253.3189.

BUSINESS & INDUSTRY DIVISION

Asnuntuck Community College has developed proven workforce solutions to boost your employees' productivity and morale and your company's profitability.

Our highly customized training and support services address a full spectrum of workforce needs from entry level to managerial positions. Our instructors are highly trained professionals who bring their real-world experience into the classroom.

We can educate your employees on many common issues in the workplace, including individual and organizational productivity, supervisory techniques, office skills, and specialized trade needs, among others.

We know you're busy, so we will work around your schedule to ensure you and your employees have adequate time for this essential training. You can visit our campus in Enfield, Connecticut, or our instructors will provide customized training at your work site.

Choose to hold your classes during the day, evening or on the weekend. Online training options are available as well. For more information, please call 860.253.3128.
